

Administrative Goals and Priorities

The board members direct the administration to establish a management and planning process that identifies goals and priorities needed to effectively and efficiently administer board policy.

Central to the system will be goals directed toward the following:

- The development and maintenance of an educational program that is comprehensive and designed to meet diverse student needs.
- The development and maintenance of a fiscal management system that keeps the district financially stable and that makes the best use of district funds.
- The development and maintenance of a community involvement program that keeps the parents, students, and patrons aware of district planning and programming.
- The development and maintenance of a professional staff recruitment, training, and supervision system that attracts the most qualified educators and that keeps them professionally reviewed.
