

District Safety Policy Statement

The safety and health of employees at Bruneau-Grand View School district is of primary importance. Bruneau-Grand View's policy is to provide safe and healthful working conditions and operating practices that will ensure a safe work environment for employees.

A safe and healthful operation conserves human and material resources and is essential to efficient production. Accidents, on the other hand, represent a needless waste of human resources and economic loss.

All levels of management have a primary responsibility for the safety of all employees to preclude accidents. The employee, in turn, is expected to adhere to the regulations and policy outlined by the district.

These responsibilities can be met only by working continuously to promote safe work practices among all employees and to maintain property and equipment in a safe operating condition. By working together, we can maintain a safe working environment for all employees.

Dennis Wilson
Superintendent/Principal
